PROJECTS

Finexx CRM & Fleet Management System Laravel, PHP, MySQL - <https://www.finexxtravels.com>

Tech Stack: Laravel, PHP, MySQL, Bootstrap, JavaScript, jQuery, DataTables

- Developed a CRM and Fleet Management System for managing leads, enquiries, proposals, and vehicle operations.
- Implemented features for customer management, follow-up tracking, vehicle maintenance, and fuel monitoring.
- Built admin dashboards with sales and lead analytics.
- Integrated CSV bulk upload, PDF generation, and role-based access control (RBAC).
- Optimized application performance using AJAX, lazy pagination, and efficient database queries.

JSK Automotive, Magento 2 / PHP- <https://jskautomotive.com/>

Tech Stack: Magento 2, PHP, MySQL, JavaScript

- Developed and maintained a Magento 2 e-commerce platform for automotive spare parts distribution.
- Built a custom RFQ module for inventory management, sales tracking, supplier operations, and profit analysis.
- Implemented stock replenishment, supplier billing, and workflow automation features.
- Enhanced operational efficiency and inventory control through optimized backend workflows.

SIX ELEMENTS, Laravel /PHP - <https://sixelementsdigital.com/>

Tech Stack: Laravel, PHP, MySQL, JavaScript

- Contributed to developing an educational platform using Laravel and MySQL.
- Built features for course access, video and class management, and student engagement.
- Developed responsive frontend and backend modules using PHP and JavaScript.
- Assisted in database management, bug fixing, and performance optimization.

Magento 2 PDF Downloader Extension, Adobe Commerce Marketplace Extension

Website: <https://commercemarketplace.adobe.com/emvigo-extensions-pdf-downloader.html> 

- Developed a custom Magento 2 extension published on the Adobe Commerce Marketplace.
- Implemented secure PDF download management for Magento-based e-commerce platforms.
- Built Magento 2 module architecture, admin configurations, and optimized extension performance.

Magento 2 CMS Backup Extension, Adobe Commerce Marketplace Extension

Website: <https://commercemarketplace.adobe.com/emvigo-extensions-module-cms-backup.html> 

- Developed a Magento 2 extension for CMS content backup and restoration.
- Implemented secure backup and recovery for CMS pages and blocks within Magento applications.
- Designed admin configuration features and optimized module performance for seamless integration.

Task Manager, Laravel / PHP

Employee Task Management System

- Developed a task management system for assigning and tracking employee tasks within an organization.
- Implemented admin functionalities to create tasks, monitor progress, and manage employee workflows.
- Built reporting features to track task status, employee performance, and overall work progress.
- Developed responsive frontend and backend modules using Laravel, PHP, JavaScript, and MySQL.

BBO Marketing, (Wordpress) - <https://bbomarketing.online/>

HILLTOPSTAY RESORT, (Wordpress) - <https://hilltopstayhome.com/>

Disease Symptom Recognizer, (Python Django , Machine Learning, Streamlit)

Petshop Ecommerce Website, (Python Django)

Waste food management, (Android)

EDUCATION

Master of Computer Applications, Marian College Kuttikkanam (Autonomous)	08/2023 – 03/2025 Kuttikkanam, Kerala
Bachelor of Computer Applications, JPM Arts and Science College	07/2019 – 05/2022 Kanchiyar, Kerala
