PROJECTS

Finexx CRM & Fleet Management System (Laravel / PHP) - <https://www.finexxtravels.com>

Tech Stack: Laravel, PHP, MySQL, Bootstrap, JavaScript, jQuery, DataTables

- Developed a CRM and Fleet Management system for managing leads, enquiries, proposals, and vehicle operations.
- Built features for follow-ups, customer management, vehicle maintenance, and fuel tracking.
- Created admin dashboards with sales and lead analytics.

- Implemented CSV bulk upload, PDF generation, and role-based access control.
- Improved performance using AJAX, pagination, and optimized database queries.

JSK Automotive, (Magento 2 / PHP)- <https://jskautomotive.com/>

UK-based Automotive E-commerce Platform

- Developed and maintained a Magento 2-based e-commerce platform for automotive spare parts distribution.
- Engineered a custom RFQ (Request for Quotation) module to streamline inventory management, sales tracking, profit analysis, and supplier operations.
- Implemented stock replenishment, supplier billing, and workflow automation features to enhance operational efficiency and inventory control.

SIX ELEMENTS, (Laravel /PHP)

Educational Learning Platform

- Contributed to the development of an educational platform for managing online classes and student learning activities.
- Worked as part of a team to build features for course access, video/class management, and student engagement.
- Assisted in developing responsive user interfaces and backend functionalities using Laravel, PHP, JavaScript, and MySQL.
- Participated in database management, bug fixing, and performance improvements to enhance user experience.

Magento 2 PDF Downloader Extension, Adobe Commerce Marketplace Extension

Website: <https://commercemarketplace.adobe.com/emvigo-extensions-pdf-downloader.html> 

- Developed a custom Magento 2 extension published on the Adobe Commerce Marketplace.
- Built functionality to enable secure PDF download management within Magento-based e-commerce platforms.
- Implemented Magento 2 module architecture, admin configurations, and optimized extension performance for seamless integration.

Magento 2 CMS Backup Extension, Adobe Commerce Marketplace Extension

Website: <https://commercemarketplace.adobe.com/emvigo-extensions-module-cms-backup.html> 

- Developed a custom Magento 2 extension published on the Adobe Commerce Marketplace for CMS content backup and restoration.
- Implemented functionality to securely manage and restore CMS pages and blocks within Magento-based applications.
- Designed admin configuration features and optimized module performance to ensure reliable backup management and seamless integration.

Task Manager, (Laravel/ PHP)

Employee Task Management System

- Developed a task management system for assigning and tracking employee tasks within an organization.
- Implemented admin functionalities to create tasks, monitor progress, and manage employee workflows.
- Built reporting features to track task status, employee performance, and overall work progress.
- Developed responsive frontend and backend modules using Laravel, PHP, JavaScript, and MySQL.

BBO Marketing, (Wordpress) - <https://bbomarketing.online/>

HILLTOPSTAY RESORT, (Wordpress) - <https://hilltopstayhome.com/>

Waste food management, (Android)

Disease Symptom Recognizer, (Python Django , Machine Learning, Streamlit)

Petshop Ecommerce Website, (Python Django)

Student feedback system, (Laravel / PHP)
